A. E. MICHAEL'S,
A GOOD PLACE TO TRADE.

On the Side.

So another man has gone to
join the Canadian colony at
Portland, Ore. This must be a
great place, as a letter received
from a chap there says he
has a fine job in a sugar refinery,
all he has to do is catch
the flies as they go out the
window and dust the sugar off
their hind legs.

Mike says stupid people are
always refreshing, they are
so delightfully ignorant about
what they don't know.

There is one thing about it,
says the Leduc Representative,
if you don't intend to
drink you don't have to worry
about the kind of a Permit
needed.

One trouble seems to be
that the girl who has the in-
itiative to make a Leap Year
proposal may turn out to be a
back-seat driver.

Stony Plain and District.

Mrs Laird, Detroit, is visit-
ing in Stony with her daughter,
Mrs F W Landy.

Mr and Mrs Thickerry are
visiting in Stony with their
daughter, Mrs James Smith.

Two Edmonton gents with
a conveyance paid Bill Hanke
a visit yesterday at his farm,
and took Bill back to town
with them.

After unceasing efforts and
about a score of T-D phone
calls, Promoter Laird suc-
ceeded in inducing the North
Edmonton half team to prom-
ise to come out to Stony on
Saturday afternoon to face
his aggregation of invincible
ball tossers. McHildebrandt,
the well-known pitcher from
Griffin Spike, has been en-
listed for the season. Albert
Dios is bringing his bunch up
from the Grove Friday night
for a practice game with the
local team.

Calendar.

May 24—Dance in Stony Plain.
24—Big Show, Covert Rm.
30—Hollins U.F.A. Dance at
Mooser's barn.

June 1—Baseball season opens at
Hollins.
1—Dance at Treatment's barn at
Hollins.

June 11—Hon J R Boyle and Hon
C R MacNeil will give an
address in Stony.

The Baseball League.

Messrs Laird, Steekle and
Chesser attended the meeting
of baseball representatives in
Evansburg on Sunday last,
when the schedule for the
coming season was up for
discussion. E H Pidgeon rep-
resented Duffield at the meet-
ing; Art Theiler; Evansburg;
Mr Foster, Evansburg.

Mr Joe Driscoll was unani-
mously chosen Hon. Pres. of
the North West Alberta
League; F I Elsie, Pres; Hal
Laird secretary. The Execu-
tive Committee will consist of
the managers of the four
teams.

The following rules were
agreed on:

All disagreements be de-
cided by Joe Driscoll;

All balls to be supplied by
home club;

Umpire to be supplied by
home club;

Teams in league use the
Reich ball;

A five schedule of games
was drawn up. Following are
the ones Stony takes part in.

Stony Plain at home:

June 4 Evansburg

11 Duffield

18 Wabamun

July 9 Evansburg

16 Duffield

23 Wabamun

Aug 6 Evansburg

13 Duffield

20 Wabamun

Stony Plain away:

June 1 Evansburg

Saturday next is Victoria
Day, and a public holi-
day. All the places of
business in Stony Plain
will be closed.

LOCAL NEWS.

Mr and Mrs Jacob Arm-
bruster returned on Friday to
their home at Vernon, B.C.

Miss Margaret Miller, who
left here five years ago to
reside in Sparta, Wis., is
back in Stony on a visit.

Shoppers are reminded the
Wednesday half-holiday com-
mences June 4th.

Mrs Justine Treit left last
week with her household ef-
fects for her new home near
Mervin, Sask. Her son, Adam
Treit, accompanied her.

Mr Russell, the well known
hardware merchant, has his
new store at Calder open, and
will be moving his family
down to their new home on
Saturday next.

Henry Gabel has returned
from his trip to the Coast
cities.

Secretary Landy of the
Ride Club, reports that there
is now the sum of \$136.68 on
hand is the credit of the club.

Stony Plains Council met
Monday evening, but the
matter of purchasing new fire
hose was not discussed.

Among the Ford sales this
week, Johnny Miller reports,
is a brand new touring car to
Mr. Fishenden of the local
railway staff.

Officer Smith has acquired
a Dodge car.

Real estate is on the move
again. Contractor Mike Zucht
is filling an order for five cars
of garden lawn, for use at
Jasper Park.

The clause in the Liquor
Control Act making applicants
for permits appear in person
at Edmonton has been chang-
ed, and applications may now
be made out in Stony at The
Sun office.

The change in the local
train service came into effect
on Sunday last. No 1 leaves
Edmonton 5 mins. sooner, at
11:20 p.m.; No 2 leaves for
Edmonton at 5:43 a.m.; there
is no change in No. 3; No. 4
from Prince Rupert, leaves for
the east at 2:40 p.m. instead
of at 4:27.

The results of the Alberta
University exams. have been
announced. Gordon Malloch
has been awarded his degree,
B.Sc. His name also appears
first in class 1 agricultural
engineering, first in class 2
mathematics, first in class 1
mathematics. Billy Lawton,
well known to Stony sports,
has also been successful in his
exams, having taken firsts in
several classes in mining en-
gineering.

FOUND, auto license, Can be
seen at Sun office.

World Confronted With Tremendous Problem

Possibility of Clash Between Japan and U.S. Cannot be Ignored

The London Times commenting editorially on the American anti-Japanese immigration legislation says undoubtedly much of the friendly atmosphere created by the Washington treaty has been dispelled thereby. Dwelling upon the "fundamental causes of the antagonism" between the Americans and Japanese the paper continues:

"It is idle to ignore the possibility of ultimate conflict in the Pacific distant though it may be. Nobody will likely put forward alarmist theories about the ultimate clash between this east and the west.

"Upon the people of these Isles (Great Britain) with their cherished friendship for Japan and their insurmountable ties with the United States, rests perhaps the supreme responsibility for averting so incalculable a disaster. But the seeds of conflict are on either side of the Pacific Ocean and it behooves this country to watch with incessant vigilance every turn in the most tremendous problem confronting the world. The action of the United States marks a very significant stage in its development."

TOO MANY HOME CARES

One Reason Why So Many Women Are Weak and Run-Down

The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder women's backs ache, and their nerves are worn out. No wonder why they get depressed and irritable, suffer from headaches, and always feel out of sorts. Of course all women are not like that. What is the difference?

A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health in women who feel run-down and depressed. Make new rich blood. You can do it with Dr. Williams' Pink Pills. These pills have the marvellous property of building up the blood and toning up the nerves. That is proved by the case of Mrs. H. Springer, Scott street, Vancouver, B.C., who says:—"Dr. Williams' Pink Pills brought back my health and strength and restored my nerves to normal condition after other medicines had failed. It was after the birth of my second child that I became so anaemic and nervous that I thought I would lose my mind as well as my strength. I tried several medicines, but got no relief until I was advised to try Dr. Williams' Pink Pills. After using a few boxes of these I could see a change. I felt stronger; my appetite was better, I slept better, and my nerves were stronger. I continued the use of the pills for some time, and again found myself a well woman, and I can sincerely say that my health has since been the best. I can cheerfully recommend the pills to all weak, run-down women."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

When Robert Browning was in his 70th year, Oxford and Cambridge presented him with an honorary degree.

"Best Thing in the World For Delicate Girls"

Mrs. John Bennett, Boggy Creek, Man., writes: "My little girl had organic nervous trouble, could not sleep, had severe headaches and fainting spells. This went on for three years, and three doctors helped her very little. After reading of what Dr. Chase's Nerve Food had done for others, I got some for her. She is now so well that she is like a different child. She is fourteen years old and looks the picture of health."

"We have used Dr. Chase's Nerve Food for different members of the family, when recovering from 'flu' and scarlet fever, and it has always helped them."

Dr. Chase's Nerve Food

60 cts. a box of 40 pills, Edmondson, Bates & Co., Ltd., Toronto

Grain Handling Records

All Previous Records Smashed By C.P.R. in Alberta

All previous grain handling records of the Canadian Pacific Railway in Alberta have been completely smashed this season, according to an official statement. Since the commencement of the grain shipping season, on September 1, to March 31, the Canadian Pacific have placed 10,000,000 bushels of wheat in store and 2,000,000 bushels of other grains, and have shipped but of the province 33,500,000 bushels of wheat and 13,500,000 bushels of other grains. The total grain handled in the period mentioned is 111,000,000 bushels. This is practically double the shipments made by the company for the whole of last season, the figures then being 55,000,000 bushels of wheat and 7,250,000 bushels of other grains.

America's Only Ex-President

William Howard Taft is the Only Living Ex-President of U.S.

William Howard Taft is the only living ex-President of the United States. John Adams lived 25 years after leaving the White House. Grover Cleveland lived 11 years, 3 months and 20 days after his second term. Six presidents died in office. They were William Henry Harrison, who held office only one month; Zachary Taylor, who was president a little more than a year; Warren G. Harding, who died Aug. 2, 1923, after serving 2 years, 4 months and 29 days, and Abraham Lincoln, James A. Garfield and William McKinley, who were assassinated. Three presidents died on the Fourth of July. They were John Adams and Thomas Jefferson, who passed away in 1826, and James Monroe, who died in 1831.

Ferry Runs Between Harwich and Zeebrugge

Boats Capable of Carrying 54 Ordinary Railway Coaches

Trains ferrying have begun to run between Harwich and Zeebrugge. They start not from the Zeebrugge Mole, but from the Bruges Canal. Each is a flat vessel 330 ft. long and 63 ft. wide, bearing four railway lines, and capable of carrying 54 ordinary railway coaches. Having arrived at Zeebrugge from Harwich for a test, one of the boats spent only half an hour in reaching the basin, in mooring and in letting down and fixing its big gangway. Then it embarked 18 railway coaches in less than an hour.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are freely oiled with it and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or grain be sustained, nothing could be better as a dressing or lotion.

Hebroids For B.C.

Proposal From Provincial Government To Give Grant to Interested Settlers

Negotiations now in progress between the Provincial Government and the British Government probably will result in several shipments of immigrants from the Hebrides being brought to British Columbia this summer. The British Columbia Government proposes to give each family a grant of \$500 on their arrival at the spots selected for their settlement. This will be supplemented by an additional \$200 from the British Government and, with shelters provided, \$600 in cash and close to the sea where they can indulge in their pursuit of fishing.

Successful Women Farmers

New Era in History Of Agriculture Is Beginning

The profession of agriculture for women was dealt with from many aspects at the Women's Institute convention in April. With large numbers of women coming from other parts of the world, coupled with the fact that farm machinery today has made farming operations of all kinds possible to women, it would seem that a new era in the history of agriculture was beginning. There are two women who have made an unqualified success of farming in British Columbia, as illustrated by the 10-acre farm in the Okanagan near Vernon. These two women have their 10 acres in fruit trees, and are successfully keeping bees.

Alberta's Population According to the bush on which Alberta is now receiving subsidy from the Federal Government, the population of the province is estimated to be 645,000. The 1921 census gave the population as 588,000.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

The first real picture painted by Michael Angelo was the one on the subject of the temptation of St. Anthony.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it. The kind you have always bought bears signature

Wm. H. Fletcher.

Eases Kitchen Work

To Women Who Do Their Own Work: Suppose you could save six minutes every day in washing pots and pans—two minutes after every meal. In a month, this would amount to a saving of three hours of this disagreeable but necessary work. This saving can be made by using SMP enameled kitchen utensils, as their smooth sanitary surface will not absorb dirt or grease. No scraping, scouring or polishing is needed when you use Diamond or Pearl Ware. Soap, water and a dish towel is all you need. Ask for

SMP Enameled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearly grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

Bee-Keeping Industry Makes Remarkable Strides In West During The Past Three Years

One of the important aims of the District Builders of Southern Manitoba is to encourage their young people to take up beekeeping, which will provide them with all independent income.

Beekeeping is one of the few things that can be carried on profitably by boys and girls during the summer months when their parents would naturally want them at home, and yet leave the boy or girl free for the winter months with enough earned money in hand to allow them to follow any course of study they wanted without breaking the home ties.

Beekeeping is one of the important industries in Manitoba, as well as Saskatchewan and Alberta. It is an industry that has made remarkable strides during the past three years and is recognized as a scientific and money making project.

Not so very long ago, beekeeping was regarded as a "hobby" of farm and rural life, but that time has passed. Today, it is an industry, necessitating little labor and showing very profitable returns.

In order to establish beekeeping in Southern Manitoba, the Canadian Pacific Railway Agricultural Department recently co-operated with J. P. Floyd, provincial apiarist, to give four short courses in beekeeping at Deloraine, Killarney, Morden and Pilot Mound. These courses lasted a week in each town and ran in conjunction with the District Builders' conferences, another project which has gained the whole-hearted support of the Canadian Pacific Agricultural Department.

It was decided, in order that Mr. Floyd's work would be carried on after the course was finished, to give a prize of a colony of bees and beginner's equipment to the best pupil at each point. This pupil to act as point of contact between Mr. Floyd and the beekeepers in the district. In addition to a colony of bees the prize consisted of a hive in flat, super, smoker, foundation, bee, queen excluder, spur, embedder, spool and wire.

The accompanying photos are the winners of the Beaver Bees in Southern Manitoba. Miss Fraser's home is at Pilot Mound.

Want Game Laws Revised

Residents of Far North Are Dissatisfied With Existing Regulations. People living in the north country are in a rebellious mood as a result of the manner in which existing laws governing the shooting of geese and ducks is working to their disadvantage, according to Col. J. K. Cornwall, president of the Northern Trading Company.

"The government of Canada will have a first-class revolution on its hands in the Northwest Territories unless the tactics in respect to migratory birds are changed," said Col. Cornwall. "At present the laws forbid the shooting of game and ducks. The laws of the United States are different, and the sportsmen to the south are allowed to kill them wholesale. Tens of thousands of birds that hatch in the north every year are killed when they migrate. The people of the north need these birds for food, and unless the law is modified, allowing them to shoot for food, there is liable to be serious trouble."

Shortage of Lambs

Supplies Reported to be Inadequate to Meet the Demand

The noticeable feature of livestock movement, as reported by the Dominion Livestock Branch, in the third month of the year, apart from the increased volume of hogs, was the short supply of sheep. The report says: "Toronto received only 50 per cent. of the volume of March last year, and for the year to date the shortage of sheep amounts to over 15,000 head." Western Canada's marketings have been so meagre as to barely constitute a basis for trading. Despite the light volume of marketings, interest in sheep is extremely keen. The report further states that supplies are inadequate, which would indicate the wisdom of sheep raisers conserving for the breeding flock all the vigorous ewe lambs from good ewes.

W. N. U. 1555

For Midsummer Wear

Very charming indeed is this desert gray pleated crepe de chine afternoon frock with its panel front and back of soft gray Bohemian lace.

Canadian Wheat For Mexico

Mexican Millers Are Highly Pleased With Canadian Grain

A cargo of Canadian wheat has recently been forwarded from Vancouver to Mexico in an endeavor to establish a market there for the Canadian product. The Canadian Trade Commissioner in Mexico reports that Mexican millers were highly pleased with the quality of the wheat. He predicts that in the near future, Canada will supply the millers of Mexico with practically all of the wheat used there to supplement the native crop.

Russia Wants Canadian Horses

It is reported that the Ukraine agricultural bank intends to make a preliminary purchase of 1,000 horses from Canada at once, and later this year will make more purchases, the total amounting to 30,000 horses. Arrangements are being made to supply poor peasants with the Canadian horses on a credit basis.

Canada's Abundant Resources In Wild and Cultivated Fruits Of Great Value To Nation

Destruction Of Salmon Is Becoming Serious

Hair Seals Menace Industry Say Fraser River Fishermen

The destruction of the spring salmon in the Fraser River, has reached such alarming dimensions that the fishermen fear that the fish will become totally extinct and the enormous revenue lost. The culprit is the hair seal, and fishermen believe that from one-sixth to one-third of what should constitute the annual pack is actually taken out of the nets by these water wolves before fishermen can get the fish into the boats.

Very few spring salmon have been caught in the Fraser this year, and fishermen are wondering if the hair seal is effectually cleaning up the entire run before any fish can get through. So clever and cunning are the seals that it is a race between the fishermen and the seals every time a bobbing cork on the net shows that a fish has struck it. The seal generally wins. Wolf-like, it goes for the throat of the fish and throat and heart are torn out. A head is all that is left in the net in most cases.

Fishermen have tried spreading a "blind" net as to protect the actual fishing net, but the seals learned to solve the trick, so that it is now so easy. They deliberately drive salmon into the nets in order to make capture easier.

Fishermen who have brought up seal pups on a bottle state they are almost human in their intelligence. They seldom get into trouble in the fishermen's nets, appearing to understand them as well as the men themselves.

Not only do they live on the salmon, but when hunger is satisfied they kill for sport, tossing the fish out of the water, like a cat playing with a mouse. They can throw a 50-pound salmon clear of the water.

Eight years ago it was estimated the number of seals preying in the Fraser numbered 40,000, and the number has greatly increased since. The government has made some attempts at different times to reduce the number, but fishermen say the effort should be continued every year.

Natural Inference

Plumb—"I think all this talk about blaming the driver after every automobile accident is unfair." Tubbs—"When did you get a car?"

WINNERS OF BEAVER BEES

Canada is well favored, not only in the products of the soil, usually considered the great food crops, such as wheat, barley, oats, rye, corn, potatoes, field peas and garden vegetables, but in the fruits which can be grown in great variety and of such high excellence. These fruits, while of a certain food value, serve another purpose, mainly in that they are used to give zest and piquancy to the chief food dishes of the people, and thus, whetting the appetite and creating pleasurable sensations, the general health of the community is maintained and improved. It is, therefore, generally admitted that fruit is a very necessary part of our diet.

While the settler, in time, grows the varieties of cultivated fruits which he needs, he does not have to wait until he develops his garden to obtain his fruit, because he has two other sources of supply, namely the woods and fields where he can obtain native fruit for the picking, and the markets where fruit is sold in great variety.

The wild fruits of Canada are numerous and varied. They are found in abundance in practically every part of the Dominion where the settler is likely to go. Fruits such as the currant, gooseberry, raspberry and strawberry grow wild almost or quite to the Arctic circle, the flavor of these native fruits being unexcelled, for the most part, by that of the cultivated varieties. Over a large part of Eastern Canada the blueberry grows in great profusion, and is considered one of the most delicately flavored of all fruits. The cranberry is found wild over a very wide area and the high-bush cranberry, or penobscia, makes an excellent substitute where the low-growing species does not grow. In addition to these there are many other fine wild fruits, such as the mahoe, or juneberry, particularly valuable in the prairie provinces, the choke cherry, of very fine flavor, though somewhat astringent, the plum or bird cherry, making excellent jelly, the buffaloberry, also a useful fruit on the prairies, and, more limited in adaptation, the blackberry, salmonberry, and cloud berry, and several other fruits of less importance.

The wild Canadian plums are found all through Eastern Canada and into the prairie provinces. These vary much in size and quality, but are excellent for canning, jam or jelly. The wild grape, while not an important fruit because of its small size and the fact that cultivated varieties can so readily be obtained, is very hard and is found native throughout Eastern Canada and as far northwest as Northern Manitoba. While, as has been stated, there is an abundance and great variety of wild fruit in Canada, the climatic conditions are such that cultivated or improved varieties of most of these and other kinds are grown in enormous quantities commercially. In certain great fruit districts the bulk of the crop is grown for distribution to all parts of Canada which can be reached in a reasonable time by railroad and steamboat. Much fruit is sent overseas also. Then in many home orchards and gardens in nearly every part of Canada, where there is settlement, fruit is grown to supply at least part of the needs of the household.

Export of Wheat to Britain

According to a dispatch from London, Eng., Canada exported in the twelve months ended in March, according to the London Board of Trade, to England 30,437,000 cwt. wheat, compared with 29,559,000 from the United States. Argentina sent 23,122,000 cwt. to Great Britain; India, 9,849,000; and Australia, 6,215,000, in the same period.

Returns From Fisheries

The total value of the commercial fisheries of the prairie provinces in 1923 was \$1,745,976, comprising \$1,929,195 for Manitoba, \$256,612 for Saskatchewan, and \$133,737 for Alberta. All of the provinces show increased production, the total increase over the previous year for the three provinces amounting to \$260,583, or 17 per cent.

Even the most thifty criminal isn't anxious to line up before the bar of justice.

CHURCH UNION QUESTION MAY NOW BE SOLVED

Ottawa—A compromise to settle the differences between the Unitarians and the anti-Unitarian over the Church Union bill has been made public here.

Deputy Speaker George Gordon, of the House of Commons, was asked, as an outsider, to suggest amendments to bring the parties together, and a series of amendments, chiefly dealing with non-concurring congregations, was drawn up by him.

The first of these amendments provides that if any congregation of the Presbyterian, Methodist or Congregational churches, within six months before the coming into force of the other sections of the act, shall decide not to concur in the union, then the property of such non-concurring congregation shall be held by the existing trustees or by other trustees elected by the congregation for the sole benefit of the congregation.

Should a non-concurring congregation decide later to enter the Union then the Union Act shall apply to such congregation from the date of that decision.

The persons entitled to vote at a congregational meeting for the purpose mentioned above, according to a second amendment, is to be limited to members, except that others may vote where permitted to do so by a provincial act.

A third amendment authorizes the non-concurring congregations in communion with the Presbyterian Church in Canada to use the name "The Presbyterian Church of Canada" or any name other than "The Presbyterian Church in Canada."

In order to have a meeting of the congregation called for the purpose of voting concurrence or non-concurrence in the union, the amendments provide that a petition of 10 members should be secured in a congregation of 400 members, of 25 members in congregations up to 500, of 10 members in congregations up to 1,000, and of 100 members in congregations over 1,000.

DYSPEPTIC

Food Does You No Good

Half the time you're afraid to eat; your tongue is coated, mouth tastes bad, stomach is bloated. If you want to get well, stop using dyspeptic tablets and go to the source of the trouble before it is too late. Strengthen your stomach, cast out the bile, regulate the bowels—do this, and dyspepsia will be no more.

For your condition the best prescription Dr. Hamilton's Pills, which are made specially for the stomach, kidneys and liver.

Dr. Hamilton's Pills Aid the Stomach

Britain Now Building

Largest Radio Station

Designed to Communicate Directly With India and Australia

London—Great Britain is to have what is claimed will be the largest and most powerful radio station in the world, according to the Daily Mail. Work is already in progress on a site of 960 acres at Mill Morton, near Rugby, where 16 masts, 820 feet in height, are being erected to carry the aerials. The station is designed to communicate directly with India and Australia, says the paper, although neither of these countries has any station, as yet, powerful enough to reply without relaying.

CHAPPED HANDS

Mirand's is excellent for chapped hands and all skin diseases.

W. N. U. 1525

Round-Up Of Wild Horses In Southern Alberta

Edmonton—The Alberta department of agriculture is making arrangements for rounding up about 10,000 wild horses at large on the range areas of Southern Alberta, in the Bow Valley district and other open range sections in that portion of the province. The round-up will be held some time in June, according to present arrangements. The corals, according to the department officials, will be built within the next few days. For years bands of horses have been running at large in these sections and are practically wild. Some of them are strays that have come into the district from other parts of the province and have not been claimed by the owners.

Is Your Nose Stuffed With Cold?

Don't load your stomach with cough medicine. Send healing medication through the nostrils and send it into the passages that are inflamed with Catarrh. It's easy to get rid of a bad cold, to drive out Catarrh, to strengthen a weak throat by inhaling Catarrhose.

Get Catarrhose from your druggist today. By using it frequently you keep the air passages free from germs, and thereby prevent many a bad cold. Two months' treatment \$1.00; small size 50¢. Refuse a substitute. By mail from The Catarrhose Co., Montreal.

New Apparatus Will Foretell Earthquakes

Prophecies of Italian Professor Have Been Confirmed

Spezia, Italy.—Earthquakes need no longer cause loss of life, according to Professor Caselli, noted seismologist, who claims to have constructed an apparatus, already patented, whereby earthquakes are announced at least 15 minutes before they occur.

The scientist also claims to be able, with very slight possibility of error, to locate beforehand the centres of telluric phenomena, their intensity and the location of their most intense manifestations.

Signor Caselli's telluric prophecies of last March, which were deposited with a notary here, some time in advance of the expected disturbances, were completely and accurately confirmed by subsequent events. The professor promises to reveal his methods in the near future.

A Wonderful Milking Machine

Will Prove To Be a Boon To Farmers and Dairymen

The Lister-Pace Milking Machine has been designed to solve the milking problems of the farmer. It is so simple in operation that anyone can operate it. The machine is portable—fitted with wheels, and can be handled readily. It is compact, no piping or installation of any kind. Two cows can be milked at a time. This machine, which can be operated either by electricity or gasoline, is absolutely guaranteed. Every user has become a booster. It is sold by E. A. Lister & Co. (Canada) Ltd., with agencies at Winnipeg, Regina and Edmonton. They want a farmer agent in every district. Write to the nearest agency today for further information, and ascertain how easy it will be for you to pay for this machine by selling to your neighbors.

Protest Emigration Of British Children

Resolution Passed By Labor Women At London Conference

London.—Protests against the emigration of children apart from their relatives to the Dominions were made by delegates to the National Conference at Labor Women held in London. A resolution was passed urging that such emigration should be stopped until completely satisfactory plans were established for ascertaining the children's own inclinations in the matter and for supervising the children after their arrival in the Dominions.

The Elections in France

ARISTIDE BRIAND

ex-premier of France, one of the two chief leaders of the Left bloc, who gained brilliant victories in the recent elections in France.

Reports Decrease In Winter Killed Wheat

Return Issued By Dominion Bureau Of Statistics

Ottawa.—General decrease in the amount of fall wheat winter killed is reported in a return issued by the Dominion Bureau of Statistics. Of the 767,000 acres of fall wheat sown in Canada last year, 702,100 acres are in Ontario, 49,500 in Alberta, and 15,400 acres in British Columbia. The proportion reported as winter killed in Ontario is four per cent, in Alberta about 15 per cent, and in British Columbia about three per cent, a marked decrease in each case.

The average condition of fall wheat in all three provinces was reported on April 30 as excellent.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot callouses, without soreness or irritation.

Abandon Farms

Ottawa.—There have been 4,463 abandonments of farms by soldier settlers, Major Barnett, chairman of the Soldier Settlement Board, told the House of Commons committee on pensions and re-establishment. This figure represented 18 per cent of the total soldier settlers who had been granted loans. In no province, except Quebec, had the percentage of soldier-settler abandonments been as great as civilian abandonments.

No More Constipation or Blotchy Skin

Want a clear, healthy complexion, regular bowels, and perfect working liver?

All easy to obtain if you take CARTER'S LIVER PILLS.

CARTER'S LIVER PILLS, the sure safe and easy acting remedy for headache, dizziness, upset stomach and constipation. They have no equal. Purely vegetable.

Small Pill—Small Dose—Small Price

Empire Exhibition May Be Continued As Regular Feature

London.—The House of Commons, without a division, agreed to increase the government guarantee in connection with the British Empire Exhibition from \$100,000 to \$600,000, after a motion to reduce the extended guarantee had been withdrawn. It was announced that the millionth visitor paid into the grounds on May 14th. The exhibition opened on April 23. J. H. Thomas, secretary for the colonies, expressed the personal hope that it might be decided to continue the exhibition as a regular feature of Empire development.

After Everything Else Had Failed

Quebec Lady Used Dodd's Kidney Pills

Miss W. S. Godmyre suffered from rheumatism, backache and headaches and found complete relief in Dodd's Kidney Pills. "I tried Cedar, Que.—(Special)—I have suffered for years with my kidneys to such an extent that I had to give up my work for a while. I tried Dodd's Kidney Pills after everything else had failed, and now I am quite well. I cannot praise them too highly to my fellow sufferers. It gives me a feeling of relief. I give my appreciation of your Dodd's Kidney Pills." This statement comes from Miss W. S. Godmyre, well-known and highly respected resident of this place. She feels that she owes it to other sufferers to tell them how she found relief.

Dodd's Kidney Pills are known all over Canada as the old reliable Canadian Kidney remedy. They are known by the work they have done. "You will find that Dodd's Kidney Pills will relieve Kidney trouble, no matter where or in what form it is found."

Saskatchewan Economic Conference

Permanent Board To Deal With Economic Crisis and Contingencies

Regina.—A resolution authorizing the creation of a permanent economic board for Saskatchewan to investigate and deal with economic crisis and contingencies as they arise crystallized the two-day discussions of the economic conference here.

Under the terms of the resolution, adopted on the recommendation of a resolutions committee, the board will be composed of two farmers, consisting of a representative of the Saskatchewan Grain Growers' Association and one from the Farmers' Union, two labor representatives, one of whom shall be a woman, one manufacturer, one representative each of the loan companies and the banks, a representative of the University of Saskatchewan, one from the Women Grain Growers' Association, a representative of the transportation companies, a retailer and a representative of the government, the board being given power to turn to its members, as occasion demands.

Liner Has Strange Experience

An ocean liner steaming off the California coast recently has had a remarkable experience. It ran into huge masses of jelly fish, which gave the impression that the ship was simply plunging its way through a sea of jelly. It is said that the creatures had migrated on account of the volcanic disturbances that have taken place in the Western Pacific.

On-To-Bay Association

Prince Albert—An On-to-the-Bay Association for Northern Saskatchewan has been decided upon. A committee of organization has been appointed and is now working out its details.

Will Visit Rhodesia in 1925

Saltbury, Rhodesia.—Sir John Chubb, governor of Southern Rhodesia, announced that the Prince of Wales will visit Rhodesia early in the summer of 1925 or toward the end of the year.

The centre piers of the famous Waterloo Bridge are being rebuilt, and as a result traffic across the famous bridge has been closed. This is the first time since the bridge was erected in 1817 that it has been closed to traffic.

COMMITTEE HAS APPROVED LAST OF BRANCH LINES

Ottawa.—Remaining Canadian National branch line bills have passed the railway committee of the House. When the bills were previously before the committee, the point was taken that while total expenditure on the lines was 15 per cent more than the estimate given in the bill, there was nothing to prevent the whole of this money being spent on part of the line and the Canadian National then coming back to Parliament later for a further vote. Today, an amendment was inserted in one bill—No. 27, which stated the minister of railways he incorporated in all branch line bills providing that the expenditure may not exceed 15 per cent over the estimate on the average mileage. This, it was stated, would meet the objection raised.

Hon. J. B. M. Baxter proposed the insertion of another clause in all the bills providing that "no part of the work authorized shall be procured from responsible parties a tender or tenders for the construction of the whole line authorized, or of all the component parts thereof, such tender, or the aggregate of such tenders, not exceeding the expenditure hereby authorized."

It was agreed that the amendment proposed by Mr. Baxter should be discussed at a special meeting of the committee.

Three remaining branch line bills carried: Between Roussseau and Laurent, Que., to Mile 41 of the Moffatt branch near Pipavon, Sask. (with a minor amendment as to route); from Lloydminster, Sask., northwesterly 45 miles.

The bill was amended to provide that, for the purpose of avoiding duplication, the C.P.R. may, within seven years, have joint ownership of the line.

Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time and safety lies in having always handy on the shelf a reliable pain reliever like good old "Nerviline." For nearly half a century Nerviline has been a family standby, and most mothers have come to rely upon it in case of colds, sore throats, tight chest, sprains, cramps, nausea and sudden attacks of sickness at the stomach. For internal or external use, Nerviline is worth its weight in gold in every home, and costs but 35 cents at any dealer's.

New Tammany Head

New York.—Surrogate Judge James A. Foley was elected successor to the late Charles F. Murphy as leader of Tammany Hall. But two of the 70 members of Tammany's executive voted against him.

An annual rainfall of 452 inches was recorded on the summit of Mount Halealeale, Kauai, Hawaiian Islands, in 1922.

Here and There

The Canadian Pacific steamer Empress of Britain will arrive at Quebec shortly on her first voyage from Liverpool as a cabin-class steamer under her new name Montroyal. She is the fastest vessel sailing out of Liverpool and is scheduled to run from there to Quebec in six and a half days.

British Columbia's payroll for 1923 was \$150,000,000, according to the annual report of the Workmen's Compensation Board. The payroll for 1922 was \$128,972,500, and for 1921, \$120,099,372. — 35 playing firms operating at the end of last year numbered 5524, an increase of 145 over the previous year.

The 1924 season for the port of Montreal was officially opened on the morning of the 18th of April, when the Government ice-breaker Lady Grey arrived in the harbor. A big season is anticipated, especially by the Canadian Pacific steamships, whose vessels on the St. Lawrence route this year will exceed 127,000 gross tons.

Vancouver this season has beat Portland, the great wheat port of the Northwest and formerly the great wheat port of the Pacific. Portland imported flour in its wheat totals, Vancouver does not. According to the Portland press the American city has moved over 20,000,000 bushels of wheat to date. Vancouver, in the same period, shipped 35,000,000 bushels, exclusive of a very considerable quantity of flour.

The much prized Wilder silver medal, the highest award of the American Pomological Society, the chief horticultural body in North America, has been awarded to the Central Experimental Farm at Ottawa for the sixth time. The medal on this occasion was given for the Libby apple, one of the many fine varieties of McIntosh Red parentage originated at the Central Farm.

An estimate of \$1,500,000 for fire protection and management of forest reserves has been placed before the Government for approval by the Minister of the Interior. The Minister stated that more drastic measures of fire prevention would be taken this year and in this connection the Department of the Interior proposes to utilize the Royal Canadian Air Force for the detection of fires.

An appeal for increased pensions for the originals of the old Royal North-West Mounted Police is now before the Federal Parliament. The present pensions are based on the pay standards of 20 to 30 years ago and are therefore quite inadequate, the appeal claims, and it is asked that they be raised to the same level as those granted members of the present Royal Canadian Mounted Police, on retirement.

"This is not a simple or logical reason why each and one of the world-famous mining camps such as those of Kirkland Lake, Porcupine and Sudbury, should not be duplicated almost anywhere in the 520,000 square miles of the Quebec-Laurent Plateau, which stretches from the Ottawa and St. Lawrence Rivers to Hudson Strait," according to a statement made by T. G. Denis, superintendent of mining in the Province of Quebec, at a recent meeting of the Quebec branch of the Mining Institute of Canada.

Regina, now assumes the work of Superintendent at Prince Rupert, and his recent position is taken over by E. Crawford, formerly Superintendent of Car Service for the Western Region, Winnipeg. T. P. White, late Superintendent of Transportation for the Manitoba district, has been appointed Regional Superintendent of Car Service, and M. Helston becomes Superintendent of Transportation, Manitoba District. Mr. Helston was formerly chief dispatcher at Port Rouge, Winnipeg.

Announce Third Annual Tour to the Coast.

Special Train from Winnipeg.
Stops Made at Various
Points of Interest.

PERSONALLY CONDUCTED.

This tour, which will be interesting to the holiday maker and of great educational value to the student and to the teacher, offers an unusual opportunity for seeing, under the most favorable conditions, the Canadian Rockies including Jasper National Park and the Pacific Coast.

The special train, operated in connection with this tour and consisting of modern sleeping car equipment, dining car and radio observation car, will leave Winnipeg July 24. After stopping at various points of interest, the train will arrive at Prince Rupert on July 7th. At this latter point, tourists will embark on one of the principal steamships of the Canadian National Pacific Coast services for a cruise of 550 miles thru the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make their trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the best choice of routes returning, etc.

WORLD HAPPENINGS BRIEFLY TOLD

The London Scottish war memorial at Mesinas was unveiled by the King of the Belgians on May 6.

Rocks weighing 50 pounds were hurled and fell by an explosion in the crater of Halemauana volcano, Hawaii.

The British special service squadron arrived at Auckland, N.Z., May 10, and was accorded a tremendous reception.

Surviving her 104-year-old husband by only one day, Mrs. Malcolm MacLean, 103, died May 12, at her home in French Vale, near North Sydney, N.S.

Father Thomas, blind monk of the Trappist order at Okla., has been decorated with the French Cross of the Legion of Honor for services rendered in the war, during which he lost his sight.

A dispatch to the Giornale d'Italia from Tirana, Albania, says that in consequence of the situation growing out of the recent murder by bandits of two United States citizens, a military dictatorship in Albania is believed to be inevitable.

More than three billion dollars have been stolen from the people of the United States since the war, through the sale of spurious securities. District Attorney Jacob H. Banton declared at the annual meeting of the New York State Society of Certified Public Accountants.

This simple method for youthful loveliness

Millions have learned this easy, natural way to keep that schoolgirl complexion

The beauty and charm that is priceless to every woman and girl may be had by this simple method.

Millions have found the secret of having and keeping complexions radiant and lovely as a schoolgirl's. A method that you, too, may employ.

Regularly do this. Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

Then-if skin dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way. You cannot find a more effective

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse — and repeat the washing. Then rinse again.

Then—if skin dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way. You cannot find a more effective

Palm and olive oils—nothing else—give Nature's green color in Palmolive soap.

fine beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

Just make sure you get Palmolive—which is never sold unwrapped. All dealers have it. Get some and follow this simple method for a week. Results will surprise and encourage you.

Remember that arms, shoulders, throat need this treatment, too. Let Palmolive do for your whole body what it does for the face.

Living Costs May

Be Slightly Lower

Statistical Expert Gives Predictions For Coming Season

There will be no decline in building costs during 1924, according to Roger Babson, the statistical expert, in forecasting prospects for the coming season.

In other directions, however, his analysis and predictions of the cost of living during this present year are decidedly cheering to the average householder.

"Expenditures for food, clothing and furniture and miscellaneous items are less than they were three years ago," states Mr. Babson, "but housing and fuel costs are higher. The average man can now buy things that cost him \$1,000 in 1920 for \$800."

"During the next twelve months the largest reductions can be looked for. The other items that go to make up living costs will remain at about their present levels, with a possible slight downward tendency in special instances."

Italy is reported to have a surplus of 300,000 people to send abroad this year.

FACE BROKE OUT WITH PIMPLES

Hard, Large and Red. Cuticura Healed.

"My face broke out with pimples that were hard, large and red. They feasted and scaled over, and itched and burned causing me much distress. I tried several different remedies but they did not help any. I read an advertisement for Cuticura Soap and Ointment and purchased some, and after using them about a month I was completely healed." (Signed) Miss Catherine L. Carter, Aberdeen Hospital, New Glasgow, Nova Scotia.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

Sample Book Free! Mail Address: "Cuticura, Inc., 445 St. Paul St., W. Montreal. Send coupon, enclosing 10c, for Cuticura Soap and Ointment, and a sample of Cuticura Soap to the nearest mail order house."

SUNDAY SCHOOL LESSON

MAY 25

JEREMIAH AND THE BABYLONIAN CRISIS

Golden Text.—Amend your ways and your doings, and obey the voice of Jehovah your God. Jeremiah 25:1-10. Lesson.—Jeremiah 1:1-10; 2:1-10; 13:1-12; 25:1-14; 26:1-24; 26:1-25; 38:1-28.

Devotional Reading.—Psalm 86:1-3.

The Text Explained and Illumined. Jeremiah Speaks Boldly For God: "Reform or Ruin," verse 1-7. Early in the reign of Jehoiakim, Jeremiah the prophet felt impelled to warn the people as they came to worship at the temple, that they were turning from their evil ways and obeyed God, giving heed to his messages sent them through his prophets. God would send dire calamity upon them—their temple would be laid waste as Shiloh had been the original sanctuary of the nation, where the ark had been kept. Jer. 7:12, 14, and the city would become the subject of cursing, as being contemptible. This city shall be desolate, without inhabitants. "There is a latitude in prophetic language. Indeed, the Scriptures ought to be interpreted with intelligence rather than mechanically." (Westminster Teacher).

II. Jeremiah Is Threatened With Death, verses 8, 9. "Had Jeremiah's address been delivered to the people generally, without containing, as it did, a denunciation of the official classes, namely, the priests and the prophets (the latter were false prophets, Jer. 23:16-17; 28:1-17, flattery—the king), it probably would have passed without official recognition. It was not an uncommon thing for a zealous man to address the people in the name of God for the purpose of correcting wrongs, both in public and in private life, but in this case the priests and the prophets felt that they were personally attacked. The priests felt aggrieved, because Jeremiah called down the wrath of God upon the temple, and with its fall their official functions would necessarily cease. The prophets felt aggrieved because by implication they contrasted the prophets who were sent by God to admonish the people with those who were not prophets of Jehovah but seekers of popularity; who, instead of correcting wrongs, countenanced them and even declared that they existed by the will of God (D. W. Antrim: "Why hast thou prophesied? Thou shalt surely die," shouted priests and prophets and people as they laid him upon him). With bonds and scorn, and evil will The world requited his prophetic still." (Whittier).

Minard's Liniment For Failing Out of Hair

WHEN BABY IS ILL

When the baby is ill, when he cries a great deal and no amount of attention or petting makes him happy, Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are absolutely guaranteed to be free from opiates and narcotics and can be given to even the new-born babe with perfect safety and always with beneficial results. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The average backyard by any other name would inspire no landscape painter.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

The Filipino has the fast public holiday in the year. It is Rizal Day, celebrated December 30.

MRS. HENRY McDONALD

7,000 Settlers in April

Western Canada received approximately 7,000 new settlers from overseas during April, according to figures issued by the Canadian National Railways at Winnipeg. This marks the heaviest influx into the Dominion since pre-war days and is stated to be the advance guard of thousands more who will pour into the west during this and succeeding months.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is quietly gaining a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. B. Kellogg's Asthma Remedy taken early will prevent incipient conditions from becoming chronic and saves hours of awful suffering.

A Matter of Size. "He—I am not such a big fool as I used to be."

She—"I thought you looked things."

Minard's Liniment, the Athlete's Remedy

Income Tax Figures

Amount of Tax Paid by Farmers Shows Heavy Decline

Some interesting figures concerning the income tax have been tabulated in the house. Since its inception the income tax has contributed to the public treasury some \$215,000,000. Beginning with about \$2,500,000 in the fiscal year 1915-16, it gradually increased year by year and reached the peak of \$73,500,000 in 1921-1922. In the fiscal year 1922-1923 it dropped to \$38,750,000. Figures for the last fiscal year are not available.

Income tax collected from agriculturists is included in these figures but afterwards they are analyzed separately. Some of the provinces show that collections from this class of citizen fluctuated considerably. Saskatchewan farmers paid \$572,055 in 1921-1922 and dropped to \$214,940 in 1922-1923. Alberta farmers began with \$179,389 and dropped to \$94,846. Farmers of the Yukon began with \$10 and rose to \$101.

Canada's public purse has benefited to the tune of \$192,334,507 from the business profits tax since its inception in 1917 and up to March 31, 1924. It reached its peak in 1920 when \$441,184,184 was paid on this account and it touched its lowest point in the fiscal year just closed when \$1,752,880 was the amount paid by Canadian business men.

The figures are given in a return tabled in the House of Commons.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Livestock Exports

Upward Trend Is Shown in Exports Of Livestock and Meat Products

Total cattle exports to the United States during the month of March amounted to 7,596 head, as compared with 6,356 in March, 1923, and to Great Britain 11,388 head, as compared with 11,373 head. Beef exports, totalled 2,050,000 lbs.; bacon, 10,457,500 lbs.; pork, 1,029,100 lbs.; and mutton, 15,500 lbs., as compared with 3,641,600 lbs. of beef, 8,045,000 lbs. of bacon, 478,600 lbs. of pork, and 13,500 lbs. of mutton, respectively, in March, 1923.

PHONE 40.

Stony Plain and District.

Mr. A. Stockwell is taking his Arabian Nights Theatrical Co. over the river to Telfordville for a one-night stand, on Friday June 5th.

Mr. B. E. McLennan, the well-known Brightbank farmer, is leaving next month on a trip to his old home in the States.

Dr. S. Hamilton, dentist, will be in Stony, Friday, the 23d May.

Trains for Wabamun and Seba leave Stony on Saturday next (Victoria Day) at 10 a.m.; returning to Stony about 9 p.m.

The employees of Marshall Wells are holding a big picnic at Edmonton Beach Saturday next.

The barn on the old Treit homestead burned down, on Tuesday last.

House breakers have been busy once more at Edmonton Beach. On Thursday last Mr. Rennie captured two youths, Mike Kimblish and Clarence Hottelinski, who had been ransacking the Templeman cottage and banded them over to the police.

Holborn U.F.A. band will hold a dance Friday May 30, in the Miesner barn.

Mr. William Trantman on Monday took home 84 bundles of shingles for his new barn at Holborn. Bill announces a dance will be held in this barn when Carpenter Anderson completes the structure, probably about Friday, June 6th.

Bill Huse, south of Duffield, lost a barn and blacksmith last week; then fire.

The G. W. V. A. second annual re-union of all ex-service men and their friends will be held at Fort Saskatchewan on Saturday next. Special trains leave Edmonton in the morning. Endless fun and amusements for all. Not a dull moment all day. Do not fail to come, as May 24th has always been a noted day at the Fort for all kinds of sports, etc.

Route Cards printed at The Sun Office.

For Motorists

The Police have asked The Sun to draw the attention of motorists to the following regulations in the Motor Vehicle Act, which must be observed:

Car owners who have not secured their license plates will be prosecuted after this date.

Attention is drawn to the fact that it is necessary to have front plates on all cars. Both headlights must be in proper order, also the rear light.

The use of spotlights is strictly forbidden in cities, towns and villages.

DANCE!

Miesner Barn, Holborn, FRIDAY, MAY 30.

GOOD MUSIC.

EVERYBODY WELCOME!

Ladies, Please Bring Baskets.

Sporting Notes.

The basketball players from the local school journeyed to the Grove, Thursday, to play the bunch from Mr. Martin's school. Their lack of practice, neither team was at its best, but the play was fairly good, the final score being: Grover 8, Stony 10. Mr. Michael and Mr. Ghieslin kindly loaned their cars for the players to make the trip.

Some good prizes are being offered for the winners at the Rifle Club shoot on Saturday next.

There promises to be a baseball game in Stony next Saturday.

The Football Club held a meeting this week and elected Mike Zucht manager.

The Tennis Club has reorganised, and the courts have been fitted up.

And Now for a Bumper Crop

Those who have thought that the late spring would have the effect of reducing the area sown to wheat this season in this district, will be disappointed to hear that the experts figure that a larger area than 1923 (by some 400 or 500 acres) have been sown to wheat. Oats, which figured last year at around 7000 acres has been reduced to about 6000 acres; while barley, which was estimated last season at 8000 acres, will show an increase of about eight or nine hundred acres for the present season. The lands which will be fallow, the present season will be of about the same area as 1923, the increased acreage being due to breaking done last summer.

News from the Grove.

A good baseball game was seen at the Grove on the 18th between the local team and a bunch from Winterburn. The latter put up a good game, but the Grove won 4 to 2.

A very delightful dance was held Saturday night in Schwindt's Hall. Martin's six piece orchestra, from the city, furnished fine dance music, and the affair was well patronised.

Some complaint is made about the "improvement" in the road near the Wetlaufer farm, on the trail to Edmonton. Lately, this has been considered fairly good till the road gang started to "fix" it.

Our ball team is figuring on playing the team at Stony next Saturday.

LOST—Glasses, heavy celluloid frame; lost May 19th, near the Schoolhouse in Stony. Reward on return to C. F. Fumich, Bank of Commerce.

TENDERS WANTED

Tenders will be received by the undersigned until Saturday, May 24th for the building of a Chapel, 28x40 ft. in Town of Stony Plain.

Plans and specifications can be seen at the undersigned's residence. The lowest or any tender not necessarily accepted. Committee of the St. Matthew's Church, Stony Plain. GUST GITZEL.

Here and There

Earnings of the Canadian Pacific Railway for the last ten days of March amounted to \$4,496,000, as compared with \$4,313,000 for the corresponding period a year ago. This is an increase of \$183,000 or 4.2 per cent.

Immigration to Canada during the seven months ending February 1924, totalled 135,123, divided as follows: British, 67,023; from the United States, 19,100; from all other countries, 48,993. This compares very favorably with 66,139 for the same period a year ago.

Forty pilgrimages to the famous shrine at St. Anne du Beauport, Quebec, have already been arranged for June, July and August this year. Over 200,000 visitors are expected most of them from Montreal, Toronto, Buffalo, Philadelphia, Chicago, New York and Boston.

Although it has already spent \$4,000,000 in drilling for oil in Alberta without very definite results, the Imperial Oil, Limited, proposes to keep at its development campaign, so F. J. Wolfe, director of marketing for the company, states. Already the company's \$2,500,000 refinery at Calgary has had the effect of keeping prices down, he says.

An important industrial enterprise is being added to the list in Montreal in the plant of the National Cement Company, which is being constructed in the town of Montreal East on the site of one of the largest deposits of raw material for cement in Canada. The first unit of the plant will have a capacity of 900,000 barrels per annum.

A total of 969 communities in Alberta are now served by the Provincial Government telephone system. The total number of phones served in the system is 67,470, of which 32,260 are exchange phones, 25,222 are rural phones and 1,088 are private party lines and 13,585 are connecting telephones. There are 361 exchanges in the province, with 301 toll offices and 62 private party lines.

The growing importance of Canada's trade with the Pacific is reflected in the official statistics of the Vancouver Harbor Board for the month of December, 1923, which show a substantial increase in shipping at that port over the same month in 1922. The shipping through the port amounted to 434,432 tons, valued at \$31,481,192, an increase over December, 1922, of 122,602 in tonnage and \$2,703,073, in value.

Ten 10,000 Imperial gallon tenders, for use behind the P.I. type engines used in the Western mountains, have been ordered from the Canadian Locomotive Company, Ltd., Kingston, by the Canadian Pacific Railway at a price of \$12,445 each, delivery to start in May and by completion in June this year. These tenders will give more efficient coal and water service than any others in this country.

During the year 1923, 96 arrivals and departures on the St. Lawrence route, with its different services, to be maintained throughout the summer months by the popular motor class cabin and Empress class steamers, will constitute the Canadian programme of the Canadian Pacific Railway's steamships. A combined tonnage of 197,000 gross tons will be in operation on the Atlantic under the Company's flag, the large amount yet assigned by a single line to steamship passenger traffic on the St. Lawrence route.

Canada's unfavorable trade balance with the United States is more than equaled by her favorable trade balance with the United Kingdom, according to trade figures of the Bureau of Statistics. For the year ending February, Canada's imports from the United States were \$693,000,000, and her exports to that country \$450,000,000, an excess of imports of \$243,000,000. As against this, Canadian exports to the United Kingdom were \$385,000,000, and the imports from Britain \$155,000,000, a surplus of \$230,000,000 on the side of exports.

Canada is financially sound. On April 15th 1924 investors and savings account holders of the country were offered twelve million dollars worth of Canadian Pacific Railway five per cent bonds by four o'clock that afternoon. There had been over-subscribers and the books were closed. Telegraph orders came from all parts of the Dominion, a splendid evidence of the amount of money the country's confidence in the future of the big railway. Another small investor is putting savings into C.P.R. common stock which pays 10 per cent on par value of \$100.00. Since 1907, Canadian holdings of this stock have increased from 5.75 per cent to 21 per cent at the present time and holdings in the British Empire total about 75 per cent.
